PROFILE

Results-driven Information Systems Professional managing complex IT projects and implementing innovative solutions to improve business processes. Skilled in system analysis, database administration, and software development lifecycle (SDLC). Proven leadership in guiding cross-functional teams to deliver timely, high-quality IT deliverables. Adept at aligning technology with organizational goals to maximize efficiency and ROI.

WORK EXPERIENCE

Project Lead - Smart Employee Management System (SEMS)

Haramaya University (Final Year Project)

- Led the development of a web-based Smart Employee Management System to streamline HR operations such as attendance tracking, leave management, payroll processing, and performance evaluation.
- Designed the system architecture using HTML, CSS, JavaScript, Bootstrap/Tailwind (CDN) for the frontend and PHP & MySQL for the backend

System Developer - Blood Bank Management System

Haramaya University (Academic Project)

- Developed a web-based Blood Bank Management System aimed at improving donor-recipient matching, blood stock tracking, and emergency blood request processing.
- Implemented modules for donor registration, blood inventory management, request handling, and automated notifications.
